

QX Soft - Basic construction and specification

Model: Distance 2-P Tournament Ball

	R&A Standard	Specification
Diameter	Min. 1.68" (42.67 mm)	1.682"
Weight	Max. 1.62 oz (45.93 g)	45.50g
Compression	-	90
Dimple NR.	-	338
Construction	-	2-piece
Trajectory		middle
Core Material		Rubber compound
Cover Material		Elastic Surlyn Cover
Cover thickness	-	0.0768"(1.95mm)
Remark:		

Performance benefit:

- Large, fast-reaction core generates maximum velocity and flying distance.
- Thinner elastic Surlyn-blended cover reduces spin for longer iron shots.
- Side-marking aim system ensures straight putts and consistent results at the correct speed.
- Stylish dual-radius multi-dimple pattern design minimizes drag, prolongs lift, and extends flying distance with a middle and optimal trajectory.
- Target golfer swing speed: moderate to low.
